

SUBHANKAR PANDA

TEST ENGINEER

Odisha, India, 757017 | 6372466462 | pandasubhankar24@gmail.com |
www.linkedin.com/in/subhankar-panda24

SUMMARY

QA Engineer with 3 years of experience testing web-based government, educational, and enterprise platforms. Specialized in functional testing, regression testing, API validation, and UI validation. Track record of identifying 500+ defects across release cycles, contributing to 95% on-time delivery. Experienced in test automation (Selenium with Python), performance testing (JMeter), and security testing (Burp Suite basics + OWASP Top 10 awareness). Known for clear defect documentation, cross-team collaboration, and risk-based test prioritization.

TECHNICAL SKILLS

- **Manual Testing:** Functional, Regression, Integration, Sanity, Smoke, UI/UX Validation, Exploratory Testing
- **Defect Management:** Bug identification, Severity/Priority classification, Reproduction steps, Root cause analysis
- **API & Database:** REST API testing (Postman), MySQL (SELECT, JOIN, GROUP BY, data validation)
- **Performance Testing:** JMeter (basic — thread groups, listeners, parameterization, response time analysis)
- **Security Testing:** OWASP Top 10 awareness, Burp Suite (basic—Proxy, repeater and Intruder), manual SQL injection validation, XSS testing
- **Tools & Platforms:** JIRA, Postman, Burp Suite, Git, GitHub, GitLab, Excel-based tracking
- **Automation:** Selenium with Python, basic script writing for regression scenarios
- **Methodologies:** SDLC, STLC, Agile/Scrum, Defect Lifecycle, UAT support
- **Soft Skills:** Analytical thinking, problem-solving, test documentation, team collaboration

PROFESSIONAL EXPERIENCE

QA Tester — Secuodsoft Technologies Pvt. Ltd.

Aug 2025 - Present

- Owned end-to-end testing for government platforms serving 1M+ users annually — reduced post-release critical defects by 30% through rigorous regression and functional testing
- Designed and executed 450+ test cases per release cycle, achieving 100% coverage for critical workflows while reducing execution time by 15% through risk-based prioritization.
- Discovered and documented 300+ defects with precise reproduction steps and severity classification—contributed to 95% on-time defect resolution rate in collaboration with developers.
- Performed API validation using Postman for 20+ REST endpoints, catching data integrity issues before the integration testing phase.
- Validated UI consistency and cross-browser behavior across Chrome, Firefox, Edge, Safari, and Brave — eliminated browser-specific rendering bugs early.
- Introduced baseline performance testing using JMeter (10 concurrent users, response time validation) — identified 2 API bottlenecks that were fixed before production.
- Conducted manual security testing using Burp Suite (proxy, interception, repeater) — uncovered 4 SQL injection vulnerabilities and 3 XSS attack surfaces in web forms.
- Created test documentation including test scenarios, bug reports, and release readiness summaries used by product owners for go/no-go decisions.

PROFESSIONAL EXPERIENCE

QA Tester - ITLS India

May 2023 – July 2025

- Owned end-to-end testing for educational and commercial platforms across 12 major releases—maintained zero critical production bugs over 6 consecutive sprints.
- Executed 350+ test cases per sprint with 98% test coverage — reduced regression cycle time by 20% through optimized test case selection.
- Identified and tracked 200+ defects using Excel-based reporting — achieved 95% first-time fix validation rate through precise reproduction steps.
- Performed exploratory testing that uncovered 25+ edge-case issues missed by scripted testing, directly improving user experience for 50,000+ end users.
- Conducted UI validation and responsiveness testing across 10+ device types (mobile, tablet, and desktop)—ensured consistent experience across screen sizes.
- Supported UAT cycles with business stakeholders, translating user feedback into 30+ actionable test scenarios.
- Verified post-deployment fixes within 24-hour SLA — enabled faster hotfix releases without regression gaps.

EDUCATION

Bachelor of Science in Information Technology & Management,
Ravenshaw University

July 2018 – May 2021

Master of Computer Application (MCA)
Centurion University of Technology & Management

August 2021 – April 2023

ADDITIONAL INFORMATION

- **Languages:** English, Hindi, Odia
- **Notice Period:** 1 Month
- **Availability:** Open to relocation & on-site roles
- **Certifications (In Progress):** ISTQB Foundation Level (preparing)
